

Please don't allow K-Love radio station to be taken off the air. Everytime I get into my vehicle and drive to where I'm going my radio is tuned to K-Love. This station is an uplifting station. It brightens my day whenever I hear it, and because of this I am a financial supporter of it. Many of the medical and dental offices in my community play it because of its content. If K-Love was to lose air space I would just have to leave the radio off and start playing more CD's.
